Statistical Modelling III - Group Assignment

1. Introduction

2. Data Description

3. Cleaning

3.1. Loading and Type Assignment

3.2. Missing Values

4. Description of Variables

4.1. Continuous Variables

4.2. Catagorical Variables

5. Bivariate Analysis

5.1. Continuous Variables

5.2. Categorical Variables

5.3. Bivariate Analysis Between Predictors

6. Model Fitting

7. Final Model

8. Assumption Checking

9. Prediction

10. Conclusion
